ISSUER NAME:	Davy Asset Management
PRODUCT CODE:	1011302
WEBSITE:	www.davy.ie
CALL NUMBER:	+353 (0)1 6797788
REGULATOR:	Exempt Unit Trust
DOCUMENT VALID AS AT:	23/03/2018

WHAT IS THIS PRODUCT?

TYPE:	This Product is an Exempt Unit Trust
OBJECTIVES:	The objective of the Davy Asset Management Pension Unit Trust Liquidity Fund (the "Fund") is capital protection and to provide a return inline with money market rates. There is no guarantee that the Fund will achieve its objective investment Strategy. The investment objective of the Fund is intended to be achieved by investing in high quality money market instruments which will be of at least investment grade rating and deposits with authorised credit institutions.
INTENDED RETAIL INVESTOR:	The Product is targeted at Institutional Pensions and Charities. The investor's objective for this investment should be aligned with that of the Product as outlined above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified the risk classes of the underlying investment strategies as ranging from 1 out of 7, which is the lowest risk class.

The risk indicator assumes you keep the product for 1 year . The actual risk can vary significantly if you cash in at an early stage and you may get back less. The underlying funds may include illiquid assets such as alternative funds, real estate funds and/or non-quoted assets. These assets incur additional risks which are not considered in the indicator shown above when they do not represent a significant part of the underlying funds. These risks are that these assets could not be sold or not sold at the desired time and / or lead to significant losses. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

In some circumstances you may be required to make further payments to pay for losses.

This product does not include any protection from future market performance so you could lose some or all of your investment.

PERFORMANCE SCENARIOS

INVESTMENT 10000 EUR		1 YEAR (RECOMMENDED HOLDING PERIOD)
SURVIVAL SCENARIOS		
STRESS SCENARIO	What might you get back after costs	9 987.52 EUR
	Average return each year	- 0.12 %
UNFAVOURABLE SCENARIO	What might you get back after costs	9 953.23 EUR
	Average return each year	- 0.47%
MODERATE SCENARIO	What might you get back after costs	9 956.65 EUR
	Average return each year	- 0.43%
FAVOURABLE SCENARIO	What might you get back after costs	9 959.82 EUR
	Average return each year	- 0.4%

This table shows the money you could get back over the recommended holding period, under different scenarios, assuming that you invest 10000 EUR.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

WHAT HAPPENS IF DAVY ASSET MANAGEMENT IS UNABLE TO PAY OUT?

You may face a financial loss should the Manufacturer or depositary, Northern Trust Fiduciary Services (Ireland) Limited, default on their obligations. There is a compensation fund available for investors under the Investor Compensation Act, 1998 (the "Act") where the criteria for payment of compensation under the Act have been fulfilled. Further details are available from the Manufacturer.

WHAT ARE THE COSTS?

COSTS OVER TIME

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10,000 EUR. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

INVESTMENT 10000 EUR	IF YOU CASH IN AFTER 1 YEAR
Total costs	54.06 EUR
Impact on return (RIY) per year	0.54 %

COMPOSITION OF COSTS

The table below shows:

* The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.

* What the different cost categories mean.

THIS TABLE SHOWS THE IMPACT ON RETURN PER YEAR

ONE-OFF COSTS	ENTRY COSTS	0.00 %	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. The impact of costs are already included in the price. This includes the costs of distribution of your product.
	EXIT COSTS	0.00 %	The Impact of the costs of exiting your investment when it matures.
ONGOING COSTS	PORTFOLIO TRANSACTION COSTS	0.00 %	The impact of the costs of us buying and selling underlying investments for the product.
	OTHER ONGOING COSTS	0.54 %	The impact of the costs incurred in the management and operation of the product.
INCIDENTAL COSTS	PERFORMANCE FEE	0.00 %	No performance fee is charged.
	CARRIED INTERESTS	0.00 %	The Product does not pay carried Interest.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?
