## 1 IMPORTANT INFORMATION

---

The Directors in the Prospectus, accept responsibility for the information contained in this Supplement and the Prospectus. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in this Supplement and in the Prospectus is in accordance with the facts and does not omit anything likely to affect the import of such information. The Directors accept responsibility accordingly.

Shareholders should note that all the fees and expenses of the Fund may be charged to the capital of the Fund. Thus on redemption of holdings shareholders may not receive back the full amount invested and this will have the effect of lowering the capital value of the shareholders investment.

Shareholders should note that dividends will be paid out of capital, therefore capital may be eroded, distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital is depleted.

This Supplement contains information relating specifically to Davy Global Bond Fund (the "Fund"), a Fund of Davy Funds p.l.c. (the "Company"), an open-ended umbrella fund with segregated liability between sub-funds authorised by the Central Bank as a UCITS pursuant to the Regulations.

This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus for the Company dated 21 December 2018 (the "Prospectus").

The Fund is suitable for investors who are prepared to accept a high level of volatility.

An investment in the Fund should not constitute a substantial portion of an investment portfolio and may not be appropriate for all investors.

As the price of Shares in each Fund may fall as well as rise, the Company shall not be a suitable investment for an investor who cannot sustain a loss on their investment.

The Fund may invest in Financial Derivative Instruments ("FDI") for currency hedging and efficient portfolio management purposes. (See "Borrowing and Leverage; Leverage" below for details of the leverage effect of investing in FDI).

### 3 INFORMATION ON THE FUND

---

#### 3.1 Investment Objective, Investment Policies and Investment Strategy

##### (a) Investment Objective:

The investment objective of the Fund is to provide investors with income and capital appreciation through a combination of interest income, capital appreciation and currency gains by investing in global fixed income securities.

There can be no assurance that the Fund will achieve its investment objective.

##### (b) Investment Policies:

The Fund intends to achieve its investment objective by investing primarily in fixed income obligations of both government and non-government issuers in OECD Member States traded on permitted markets as detailed in Appendix II of the Prospectus ("**Recognised Exchanges**") worldwide.

The Fund intends to invest in a range of both sovereign and non-sovereign fixed income securities denominated in multiple currencies, including bonds, notes (fixed rate notes and floating rate notes), commercial paper, convertible securities (including convertible bonds and convertible preferred stock) and preferred stock.

Cash, commercial paper (i.e. short term paper issued by credit institutions), and money market obligations such as short and medium-term treasury bills and treasury notes (both fixed and floating rate) issued or guaranteed by a national government or its agencies or instrumentalities, certificates of deposit, bankers' acceptances, commercial paper and floating rate notes (i.e. bonds which have a variable coupon) will be held by the Fund to provide liquidity and will be in a manner consistent with the Fund's investment objective and policies and subject to the restrictions set out in the Prospectus.

The Fund will only invest in securities which, at the time of purchase, are of Investment Grade. The Fund may hold below Investment Grade securities provided that such securities were of Investment Grade at the time of purchase.

The Fund may also use Financial Derivative Instruments ("**FDIs**") for efficient portfolio management and/or hedging purpose as described in section 3.2 below.

##### (c) Currency Hedging

The Investment Manager will utilise different FDIs (in the form of currency futures, currency forwards, options on foregoing or any combination thereof (whether exchange-traded or over-the-counter), to seek to hedge against the currency risk of investing in assets which are denominated in currencies other than the Base Currency as further discussed in section 3.2 below. However, the Investment Manager may determine that up to 30% of the non-base currency exposure may be unhedged by way of tactical currency overlay.

All hedging transactions will be clearly attributable to a specific Share Class and therefore currency exposures of different Share Classes shall not be combined or offset against the currency exposures of other Share Classes. Furthermore, any FDIs entered into by the Investment Manager on behalf of the relevant Share Class could expose the relevant Share Class to credit risk from creditworthiness of the counterparty.

The Fund may acquire foreign currency by means of a back-to-back loan agreement. Foreign currency obtained in this manner is not classified as borrowing for the purposes of Regulation 103(1) provided that the offsetting deposit (a) is denominated in the Base Currency and (b) equals or exceeds the value of the foreign currency loan outstanding.

It is expected that the extent to which such currency exposure will be hedged will range from 95% to 105% of the Net Asset Value attributable to the relevant Share Class. Where the value of the hedges in place in respect of a given Share Class are less or more than 100% of the Net Asset Value attributable to that Share Class, the Investment Manager shall keep the situation under review and will ensure that over the Net Asset Value will not be carried forward from month to month. While it is not the intention of the Fund, over-hedged or under-hedged positions may arise due to factors outside the control of the Fund or the Investment Manager.

The Company may incur transaction costs in respect of entering into any currency hedging. Any costs and gains or losses of the currency strategy will accrue solely to the relevant Share Class.

The use of FDI for the purposes outlined above may expose the Fund to the risks disclosed under the section of the Prospectus entitled "Risk Factors".

#### (d) **Investment Strategy**

There are three broad strands to the investment process:

**Top-down:** Top-down economic and market research provides strategic direction for the Fund. This will help to determine the appropriate tactical and strategic positions in specific geographies, sectors and credit ratings.

**Bottom-Up:** At the same time bottom-up research enables the identification of unique investment opportunities in specific issuers.

**Valuation:** As with all asset classes, valuation is key. It plays a crucial role in making decisions at the geographic and sector level and also in issuer selection, where an issuer's risk return prospects are carefully evaluated in an absolute sense and also relative to its industry peers and other similar rated issuers.

Applying this process to the relevant fixed income universe produces candidates for the Fund. Once an issuer is deemed attractive following this process, comprehensive due diligence is carried out on the issuer's bond(s). This may involve (amongst other things) understanding the legal status, covenants and the particular bond's position in the capital structure, as well as ensuring the bond has sufficient liquidity. In addition, the issuer/bond also needs to make sense at the portfolio level, e.g. its prospective contribution to portfolio risk, liquidity and return. Upon considering all of these aspects, a final decision is made on whether the bond can be added to the portfolio. It should be noted that if a bond passes these stringent tests and makes it into the portfolio, it is constantly re-assessed by the same investment process.

### 3.2 **Use of Derivatives and Efficient Portfolio Management Techniques**

The Fund may engage in transactions in FDIs for the purposes of efficient portfolio management and/or to protect against currency exchange risks within the conditions and limits laid down by the Central Bank from time to time. The Investment Manager will look to ensure that the techniques and instruments used are economically appropriate in that they will be realised in a cost-effective way. Such transactions may include foreign exchange transactions which alter the currency characteristics of transferable securities held by the Fund. Such techniques and instruments (details of which are outlined below) are futures, forwards and options on the foregoing.

Warrants and share purchase rights and convertible securities will not be directly acquired but may be issued to the Fund pursuant to its investment in a particular security and, in such cases, may be retained for the purposes of efficient portfolio management and traded or exercised when considered appropriate.

### *Futures*

Futures could be used to gain exposure to positions in a more efficient manner. For example a single stock future could be used to provide the Fund with exposure to a single security. The Fund will use futures for the purpose of managing interest rate, equity or currency risk.

### *Forwards*

Forward currency contracts could be used to hedge against currency risk that has resulted from assets held by the Fund that are not in the Base Currency. The Fund, may, for example, use forward currency contracts by selling forward a foreign currency against the Base Currency to protect the Fund from foreign exchange rate risk that has risen from holding assets in that currency.

### *Options*

An option contains the right to buy or sell a specific quantity of a specific asset at a fixed price at or before a specified future date. There are two forms of options: put or call options. Put options are contracts sold for a premium that give to the buyer the right, but not the obligation, to sell to the seller a specified quantity of a particular asset (or financial instrument) at a specified price. Call options are similar contracts sold for a premium that give the buyer the right, but not the obligation, to buy from the seller a specified quantity of a particular asset (or financial instrument) at a specified price. Options may also be cash-settled. The Fund may use such instruments to hedge against market risk or gain exposure to relevant underlying bond and bond related security. Any option entered into by the Fund will be in accordance with the limits prescribed by law.

Direct and indirect operational costs and/or fees (which do not include hidden revenue) arising from use of FDIs for EPM purposes may be deducted from the revenue delivered to the Company. Such costs and/or fees are payable to the relevant counterparty to the FDI in question and such counterparty may or may not be related to the Investment Manager or the Depositary. All revenues generated from such FDIs, net of direct and indirect operational costs, will be returned to the Company.

Collateral or margin may be passed by the Fund to a counterparty or broker in respect of OTC FDI transaction. Please refer to the section of the Prospectus entitled "**Collateral Policy**" for further details.

The use of FDI and efficient portfolio management techniques for the purposes outlined above will expose the Fund to the risks disclosed under the section of the Prospectus entitled "**Risk Factors**".

## **3.3 Borrowing and Leverage**

### **(a) Borrowing**

The Company may only borrow on a temporary basis for the account of the Fund and the aggregate amount of such borrowings may not exceed 10% of the Net Asset Value of the Fund. In accordance with the provisions of the Regulations, the Company may charge the assets of the Fund as security for borrowings of the Fund.

### **(b) Leverage**

The Fund may utilise FDI as referred to in the section headed "Use of Derivatives and Efficient Portfolio Management Techniques" above. The Fund will use the commitment approach to measure market risk and calculate its exposures. The total expected level of leverage of the Fund as a result of its investments shall not exceed 100% of its Net Asset Value.

The Investment Manager does not expect the use of FDI to significantly increase the Fund's risk profile.

The expected level of leverage range is calculated based on the sum of the absolute value of notional of the derivatives used, in accordance with the requirements of the Central Bank. This

figure does not take into account any netting and hedging arrangements that the Fund has in place at any time even though these netting and hedging arrangements are used for risk reduction purposes and is therefore not a risk-adjusted method of measuring leverage which means this figure is higher than it otherwise would be if such netting and hedging arrangements were taken into account. As these netting and hedging arrangements, if taken into account, may reduce the level of leverage, this calculation may not provide an accurate measure of the Fund's actual leverage position.

The Company on behalf of the Fund has filed with the Central Bank its risk management process which enables it to accurately measure, monitor and manage the various risks associated with the use of FDI. Any FDI not included in the risk management process will not be utilised until such time as a revised submission has been provided to the Central Bank. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

### **3.4 Investment Restrictions**

Investors must note that the Company and the Fund adheres to the restrictions and requirements set out under the Regulations, as may be amended from time to time. These are set out in Appendix I to the Prospectus.

In accordance with the requirements of the Central Bank, the Fund will apply for a derogation from some of the investment restrictions for six months following the date of the first issue of Shares of the Fund pursuant to the Regulations but will observe the principle of risk-spreading. Please refer to the section 5.5 of Appendix I of the Prospectus for further details.

### **3.5 Profile of a Typical Investor**

A typical investor will be seeking to achieve a return on their investment in the medium to long term.

### **3.6 Risk Factors**

Investors should read and consider the section of the Prospectus entitled "RISK FACTORS" before investing in the Fund. However, not all of the risks disclosed in the RISK FACTORS section of the Prospectus will be material to an investment in this particular Fund.

In addition to the above referenced risks, investors should also consider the particular implications of the following risks that are relevant to an investment in the Fund. Fees and expenses of the Fund may be charged to the capital of the Fund. Thus, on redemptions of holdings shareholders may not receive back the full amount invested and this will have the effect of lowering the capital value of their investment. There is a greater risk therefore that capital may be eroded and "income" will be achieved by foregoing the potential for future capital growth of your investment and the value of future returns may also be diminished. Investors should note however that distributions made during the life of the Fund are a form of capital reimbursement.

The Fund may charge fees and expenses to capital where insufficient income has been generated by the Fund to cover the fees and expenses. There is a greater risk therefore that capital may be eroded and "income" will be achieved by foregoing the potential for future capital growth of your investment.

The risks described in the Prospectus should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Fund. Potential investors should be aware that an investment in the Fund may be exposed to other risks from time to time.

Class B Accumulating Shares do not bear any Investment Management Fees or performance fees and are restricted to Davy personnel. Shares of any Class cannot be switched for Shares of Class B Accumulating.

\*The Initial Offer Period may be shortened or extended by the Directors. The Central Bank will be notified in advance of any such shortening or extension if subscriptions for Shares have been received and otherwise shall be notified subsequently, on an annual basis.

\*\*Subject to the discretion of the Directors (or their delegate) in each case to allow lesser amounts.

\*\*\*The Company may (but is not obliged to) enter into certain currency related transactions (through the use of FDI as disclosed above in Section 3.2 entitled "Use of Derivatives and Efficient Portfolio Management Techniques") in order to hedge the currency exposure of the Classes denominated in a currency other than the Base Currency, as described under the heading "Hedged Classes" in the Prospectus. In the case of Classes that are denominated in a currency other than the Base Currency and are not identified as hedged the value of the Shares in the relevant Class will be subject to exchange rate risk in relation to the Base Currency.

Applications for Shares and/or applications for the redemption of Shares must be received by the Dealing Deadline. Applications for Shares will only be accepted on a cleared funds basis in the Base Currency.

Applications received after the Dealing Deadline for the relevant Dealing Day shall be deemed to have been received by the next Dealing Deadline, save in exceptional circumstances where the Directors may in their absolute discretion (reasons to be documented) determine and provided the Applications are received before the Valuation Point for the relevant Dealing Day. Repurchase requests received after the Dealing Deadline shall be treated as having been received by the following Dealing Deadline, save in exceptional circumstances where the Directors may in their absolute discretion (reasons to be documented) determine and provided they are received before the Valuation Point for the relevant Dealing Day.

Subscription Settlement Date: Subscription monies should be paid to the account specified in the Application Form (or such other account specified by the Administrator) so as to be received by no later than three Business Days after the relevant Dealing Day. If payment in full and/or a properly completed Application Form have not been received by the relevant times stipulated above, the application may be refused.

Redemption Settlement Date: Payment of Repurchase Proceeds will be made by electronic transfer to the account of the redeeming Shareholder at the risk and expense of the Shareholder normally within three Business Days of the relevant Dealing Day and, in all cases, will be paid

within ten Business Days of the Dealing Deadline for the relevant Dealing Day, provided that all the required documentation has been furnished to and received by the Administrator.

### 3.8 Exchange of Shares

Shareholders may exchange between similar Classes of Shares in accordance with the provisions set out under the heading “**Exchange of Shares**” in the Prospectus. The Directors can refuse an application to exchange between Classes of Shares in accordance with the provisions set out under the heading “**Exchange of Shares**”.

### 3.9 Dividend Policy

For the Class A Accumulating, Class B Accumulating, Class C Accumulating and Class D Accumulating Classes of Shares in issue (and indicated as such in the table in the section above titled “Key Information for Buying and Selling Shares”), it is the present intention of the Directors not to declare or pay dividends, and any income or gains earned by the Fund and these Share Classes, will be reinvested and reflected in the value of the Shares.

For the Class A Distributing, Class B Distributing, Class C Distributing and Class D Distributing Classes of Shares in issue (and indicated as such in the table in the section above entitled “Key Information for Buying and Selling Shares”), subject to net income being available for distribution, the Directors intend to declare dividends on the Distribution Date and such dividends will be paid on or before the 14<sup>th</sup> Business Day following the Distribution Date to all Shareholders entered on the register of Shareholders at the close of business on the Business Day immediately preceding the Distribution Date and therefore applicants for Shares to be dealt on or after the Distribution Date will not be entitled to the distribution paid in respect of such Distribution Date but Shareholders seeking to repurchase their Shares on or after the Distribution Date will receive the distribution paid in respect of such Distribution Date.

The Directors reserve the right to increase or decrease the frequency of dividend payments, if any, at their discretion for income distribution Shares. In the event of a change of policy full details will be disclosed in an updated Supplement and Shareholders will be notified in advance. Under the Articles, dividends may be paid out of the profits, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the Fund; or (iii) out of capital.

Dividends are paid out of capital to allow the provision of income to Shareholders of the Distributing Share Classes, in the event of insufficient income being in the Fund for a particular period.

Dividends will be paid to Shareholders by electronic transfer to the relevant Shareholder’s bank account of record on the initial Application Form in the currency of denomination of the relevant Class of Shares at the expense of the payee and within such timeframe as discussed above. The net income available for distribution in respect of the relevant Share Class will be determined in accordance with the relevant law and generally accepted accounting principles consistently applied.

Please also refer to the section in the Prospectus entitled “Dividend Policy”.

### Investment Management Fee & Expenses

The Investment Manager shall be entitled to the maximum annual Investment Management Fee equal to a percentage of the Net Asset Value of the relevant Class detailed in the above table.

Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears.

The Investment Manager is also entitled to its reasonable out-of-pocket expenses out of the assets of the Fund.

### Distributor Fee & Expenses

The Distributor shall be entitled to the maximum annual Distributor Fee equal to a percentage of the Net Asset Value of the relevant Class detailed in the above table.

Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears.

The Distributor is also entitled to its reasonable out-of-pocket expenses out of the assets of the Fund.

### **Depository Fee & Expenses**

The Depository shall be entitled to an annual Depository Fee equal to a percentage of the Net Asset Value of the relevant Class, detailed in the above table, subject to a minimum monthly fee of €600 in respect of the Fund and a transaction fee for each transaction conducted pursuant to the Depository Agreement which will be charged at normal commercial rates. Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears.

The Depository shall also be entitled to be reimbursed out of the assets of the Fund all agreed sub-custodian fees, expenses and transaction charges (which will be charged at normal commercial rates) as agreed with the Directors.

### **Administrator Fee & Expenses**

The Administrator shall be entitled to the maximum annual Administrator Fee equal to a percentage of the Net Asset Value of the relevant Class detailed in the above table. Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears. The Administrator shall also be entitled to a minimum annual fee of €30,000 per year and a transaction fee for each transaction conducted pursuant to the Administration Agreement which will be charged at normal commercial rates.

The Administrator is also entitled to its reasonable out-of-pocket expenses out of the assets of the Fund.

### **3.11 Other Fees and Expenses**

This section should be read in conjunction with the section entitled "Fees and Expenses" in the Prospectus.

#### **(a) Anti-Dilution Levy**

The Directors reserve the right to impose an Anti-Dilution Levy in the case of net subscriptions and/or net repurchases on a transaction basis as a percentage adjustment (to be communicated to the Administrator) on the value of the relevant subscription/repurchase calculated for the purposes of determining a subscription price or repurchase price to reflect the impact of other dealing costs relating to the acquisition or disposal of assets and to preserve value of the underlying assets of the Fund where they consider such a provision to be in the best interests of a Fund. Such amount will be added to the price at which Shares will be issued in the case of net subscription requests and deducted from the price at which Shares will be repurchased in the case of net repurchase requests. Any such sum will be paid into the account of the Fund.

#### **(b) Establishment Expenses**

All fees and expenses relating to the establishment and organisation of the Fund as detailed in the section of the Prospectus entitled "Establishment Expenses" shall be borne by the Company and amortised in accordance with the provisions of the Prospectus.

### **3.12 Miscellaneous**

Additional Funds of the Company may be added in the future with the prior approval of the Central Bank. The names of the other Funds are disclosed in the Prospectus.
